

Where is our Water Going?

Water Quantity and Quality in the Ottawa Valley – Are things changing?

The Ottawa Valley Chapter of the **Air and Waste Management Association** (OVC A&WMA) and the Ottawa Centre of the **Canadian Meteorological and Oceanographic Society** (CMOS) will be hosting a panel discussion and networking event on Water Quantity and Quality in the Ottawa Valley on **June 17, 2014**.

This event will be an excellent opportunity to hear first-hand from experts on local water issues including:

- What are the issues facing water quality and quantity in the Ottawa Valley today?
- What role do government agencies play?
- What risks do we expect with climate change? Can these risks be mitigated?
- What role can the public play in conservation, improving awareness, improving preparedness?

Panelists:

- **Meredith Brown**, Executive Director, Ottawa Riverkeeper
- **Jim Bruce**, OC, FRSC, Former Director of Canadian Centre for Inland Waters (CCIW) and Assistant Deputy Minister for Environment Canada
- **James Brennan**, Director of Government Affairs, Ducks Unlimited Canada
- **Sarah McLeod**, Water Resources Technician, Rideau Valley Conservation Authority

There will also be an opportunity to network with fellow environmental professionals.

Date: Tuesday, June 17, 2014

Time: 5:00 – 7:00 pm

Location: Palladium Room, Rideau Canal Junior Rank Mess, 3rd Floor
4 Queen Elizabeth Drive, Ottawa, ON (adjacent to City Hall)

Cost: \$20 A&WMA/CMOS members / \$30 non-members
\$10 A&WMA/CMOS student members / \$20 student non-members

Payable online at www.awma-ovc.ca or at the door. Refreshments & Cash Bar

Please RSVP your attendance to awma.ovc@gmail.com by Friday June 13, 2014.
